

Conserving Water in Your Kitchen

TIPS

Typical residential water use

- Don't let the water run while hand washing dishes. Fill a basin instead.
- Dishwashers typically use less water than hand washing dishes. Don't pre-wash.
- Toss, don't wash recycleables.
- Use aerators and/or water flow-reducer attachments on all sink and shower fixtures throughout your house to reduce water use.
- Choose Energy Star-approved appliances for maximum efficiency.
- Look for the Water Sense label when upgrading appliances.
- Go to: **www.epa.gov/watersense**

Benefit Assessment Reduced

With additional new accounts on the "Three Condo" (CND) sewer system, the benefit assessment rate is lowered for all customers in this sewer district. This reduction in rate involves condo units in Cedarbrook, Stony Hill and Whisconier Village. The sewer bond for this area is scheduled to be retired in 2030.
